3 VOTES**

**IT IS RECOMMENDED THAT YOUR BOARD ACTING AS THE GOVERNING BODY
OF THE LOS ANGELES COUNTY FLOOD CONTROL DISTRICT:**

Approve and instruct the Chairman to sign the enclosed Agreement between the Los Angeles County Flood Control District and TreePeople, Inc., a nonprofit organization, for the Sun Valley Watershed – Sun Valley Park Drain and Infiltration System Project. This agreement provides for TreePeople to contribute between \$400,000 and \$410,000 obtained through a Murray-Hayden Proposition 12 Grant towards the construction of the project.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

As part of an overall plan to solve a severe flooding problem in the Sun Valley area, the Flood Control District will construct the Sun Valley Watershed – Sun Valley Park Drain and Infiltration System Project, designed to reduce flooding, increase water quality, recharge groundwater, and improve aesthetics in and around the Sun Valley Park and Recreation Center. More specifically, the project will contain stormwater flow from the 49-acre area upstream of the park, treat the stormwater within the park, and allow the

captured stormwater to recharge the groundwater through underground infiltration basins. The project also includes educational signage, a vegetative swale, new bleachers, and field lights within the park.

TreePeople will contribute a maximum of \$410,000 towards the project's recreational amenities using funds obtained through a Murray-Hayden Proposition 12 Grant.

Your Board's approval of the enclosed agreement will authorize the District to receive and accept the Murray-Hayden Proposition 12 Grant funds provided by TreePeople and to provide TreePeople periodic invoices for the project in accordance with the procedures outlined in the Murray-Hayden Proposition 12 Grant Guidelines.

Implementation of Strategic Plan Goals

This action is consistent with County's Strategic Plan Goal of Organizational Effectiveness by utilizing a collaborative effort to implement the project. This action also meets the Strategic Plan Goal of Fiscal Responsibility by utilizing available funds with third party sources. This action also meets the Strategic Plan Goal of Service Excellence by increasing recreational opportunities and environmental benefits and improving the quality of life for citizens of the County.

FISCAL IMPACT/FINANCING

This agreement between the District and TreePeople provides for the District to accept a contribution between \$400,000 and \$410,000. This contribution will be used toward the construction costs of the project which are currently estimated at \$5.2 million. Funds for the total project are included in the Fiscal Year 2003-04 Flood Control District Budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The enclosed agreement was executed by TreePeople on June 16, 2004. It has been reviewed and approved as to form by County Counsel.

This guide will assist you with state grant funds administered by the California Department of Parks and Recreation (DPR). Processing of grant documents will be expedited if your project officer's name is included on your correspondence. Grant applications should be addressed to:

Project Officer (Name)
California Dept. of Parks and Recreation
Office of Grants and Local Services

IMPORTANT POINTS

1. Funds cannot be disbursed until there is a fully executed contract between DPR and the Grantee.
2. All real property shall be acquired in compliance with current laws governing relocation and acquisition of real property by public agencies.
3. Contracts for funds approved by the Legislature must be executed within the period of availability provided in the state budget, normally the fiscal year in which the funds are appropriated and two fiscal years thereafter. Two additional years are provided to complete the project, totaling five years from the date of appropriation.

WHAT TO SUBMIT

A complete application consists of one copy each of the items listed on the back of the application form (Appendix A).

PROJECT ADMINISTRATION

Normal Grant Process

1. Grantee completes and submits applications to DPR.
2. DPR reviews application materials and sends a contract to Grantee.
3. Grantee returns signed contract to DPR.
4. DPR returns a fully executed contract to Grantee.
5. Grantee may submit payment request for a 10% advance for project planning (Appendix D).
6. Grantee commences work on project and may submit payment request up to 90% of grant amount (Appendix D).
7. Grantee completes project and submits project completion packet (Appendix E).
8. Project officer makes final project inspection.
9. DPR may perform an audit of completed project.

Project Withdrawal

If a jurisdiction fails to apply or otherwise elects not to use its allocation, the allocation will be lost to that jurisdiction. In the event an approved project cannot be completed, and if grant funds were advanced, those funds plus any accrued interest must be returned to the state.

Changes to Approved Project

A Grantee wishing to change the scope of an approved project shall submit the proposed change in writing to DPR for approval. Any change must be consistent with the authorizing legislation.

Payments of Grant Funds

After DPR has signed the contract, 10% of the total grant amount may be requested for initial project costs. For development projects up to 90% of the total grant or 100% of the actual development cost, whichever is less, may be requested after the construction contract is awarded or force account construction has commenced.

For acquisition projects, up to 90% of the grant or 100% of the actual acquisition cost, whichever is less, may be advanced after the property is in escrow. Such advance shall be placed immediately into escrow, or deposited with the court in condemnation cases.

For non-capital projects, up to 90% of the grant, or 100% of the actual cost, whichever is less, may be requested when project activity commences.

The remaining 10% will be reimbursed after project completion.

Grantee should allow four to six weeks to receive payment after submitting request for payment. When completing the payment request forms, all figures should be rounded to the nearest dollar.

Accounting Requirements

The Grantee shall maintain an accounting system that accurately reflects fiscal transactions, with the necessary controls and safeguards. This system shall provide a good audit trail, including original source documents such as receipts, progress payments, invoices, time cards, etc. The system shall also provide accounting data so the total cost of each individual project can be readily determined. These records shall be retained for a period of three years after final payment is made by the state. AVOID AUDIT EXCEPTIONS - KEEP ACCURATE RECORDS

Eligible Costs

Only project-related costs consistent with the authorizing legislation are eligible, and must be supported by cancelled warrants and other records.

1. Preliminary costs - Preliminary project costs (e.g., construction plans, appraisals, acquisition negotiations, etc.).
2. Personnel or employee services - Services of the Grantee's employees directly engaged in project execution. These costs must be computed according to the Grantee's prevailing wage or salary scales, and may include fringe benefit costs such as vacations, sick leave, social security contributions, etc. that are customarily charged to the recipient's various projects. Costs charged to the project must be computed on actual time spent on a project, and supported by time and attendance records describing the work performed on the project. Overtime costs may be allowed under the recipient's established policy, provided that the regular work time was devoted to the same project.

Salaries and wages claimed for employees working on state grant funded projects must not exceed the Grantee's established rates for similar positions.

3. Consultant services - The costs of consultant services necessary for the project.
4. Construction equipment - Equipment owned by the Grantee may be charged to the project for each use. Equipment use charges must be made in accordance with the Grantee's normal accounting practices. The equipment rental rates published by the State Department of Transportation may be used as a guide.

If the Grantee's equipment is used, a report or source document must describe the work performed, indicate the hours used, relate the use to the project, and be signed by the operator and supervisor.

Equipment may be leased, rented, or purchased, whichever is most economical. If equipment is purchased, its residual market value must be credited to the project costs on completion.

5. Construction supplies and materials - Supplies and materials may be purchased for a specific project or may be drawn from a central stock, providing they are claimed at a cost no higher than paid by the Grantee. When supplies and/or materials are purchased with the intention of constructing a piece of equipment, a structure or a part of a structure, the costs that are charged as supplies and materials may be capitalized according to the Grantee's normal practice or policy. If capitalized, only that cost reasonably attributable to the project may be claimed under the project.

6. Signs and interpretive aids - The cost of signs, display boards, or other minor interpretive aids relating to the project.
7. Construction - The cost of all necessary construction activities, from site preparation (including demolition, excavation, grading, etc.) to the completion of a structure or facility.
8. Acquisition - Costs of acquiring real property are eligible and may include the purchase price of the property, appraisals, surveys, preliminary title reports, escrow fees, title insurance fees, and court costs of condemnation.
9. Relocation costs - Relocation costs are allowable for projects that result in displacement of any person and/or business. The Grantee must comply with applicable relocation laws even if relocation costs are not claimed for reimbursement.
10. Non-capital projects - All costs directly related to the project activity.
11. Other expenditures - In addition to the major categories of expenditures, reimbursements may be made for miscellaneous costs necessary for execution of the project. Some of these costs are:
 - a. Communications (such as telephone, letters, etc.)
 - b. Premiums on hazard and liability insurance to cover personnel and/or property
 - c. Work performed by another section or department of the Grantee's agency
 - d. Transportation costs for moving equipment and/or personnel

PROJECT COMPLETION

Refer to Project Completion Packet (Appendix E).

STATE AUDIT

After completion of the project, the state may audit the project records. The purpose of the audit is to verify that project expenditures were properly documented. The audit would be requested by the state after the final payment request has been received, all project transactions have been completed, and the Grantee has made the necessary payments.

If your project is selected for audit, you will be contacted at least 30 days in advance. The audit should include all books, papers, accounts, documents, or other records of the Grantee, as they relate to the project for which state funds were granted. Projects may be audited at any time up to three years after project completion.

To expedite the audit, the recipient shall have the project records, including the source documents and cancelled warrants, readily available. The Grantee shall also provide an employee having knowledge of the project and the accounting procedure or system to assist the state auditor. The Grantee shall provide a copy of any document, paper, record, or the like requested by the state auditor.

All project records must be retained by the Grantee for a period of not less than one year after the state audit or final disposition of any disputed audit findings.

C. Project Costs

The Grant moneys to be provided Grantee under this Contract may be disbursed as follows:

1. If the Project includes acquisition of real property, the State may disburse to Grantee the grant moneys as follows, but not to exceed in any event the State grant amount set forth on page 1 of this Contract

D. Project Administration

1. Grantee shall promptly submit such reports as the State may request. In any event Grantee shall provide State a report showing total final Project expenditures.
2. Grantee shall make property and facilities acquired or developed pursuant to this Contract available for inspection upon request by the State.
3. Grantee shall use any moneys advanced by the State under the terms of this Contract solely for the Project herein described.

E. Project Termination

1. Grantee may unilaterally rescind this Contract at any time prior to the commencement of the Project. After Project commencement this Contract may be rescinded, modified or amended by mutual agreement in writing.
2. Failure by the Grantee to comply with the terms of this Contract or any other Contract under the Act may be cause for suspension of all obligations of the State hereunder.
3. Failure of the Grantee to comply with the terms of this Contract shall not be cause for the suspension of all obligations of the State hereunder if in the judgment of the State such failure was due to no fault of the Grantee. In such case, any amount required to settle at minimum cost any irrevocable obligations properly incurred shall be eligible for reimbursement under this Contract.
4. Because the benefit to be derived by the State, from the full compliance by the Grantee with the terms of this Contract, is the preservation, protection and net increase in the quantity and quality of parks, public recreation facilities and/or historical resources available to the people of the State of California and because such benefit exceeds to an immeasurable and unascertainable extent the amount of money furnished by the State by way of

grant moneys under the provisions of this Contract, the Grantee agrees that payment by the Grantee to the State of an amount equal to the amount of the grant moneys disbursed under this Contract by the State would be inadequate compensation to the State for any breach by the Grantee of this Contract. The Grantee further agrees therefore, that the appropriate remedy in the event of a breach by the Grantee of this Contract shall be the specific performance of this Contract, unless otherwise agreed to by the State.

5. Grantee and State agree that if the Project includes development, final payment may not be made until the Project conforms substantially to this Contract.

F. Hold Harmless

1. Grantee shall waive all claims and recourse against the State including the right to contribution for loss or damage to persons or property arising from, growing out of or in any way connected with or incident to this Contract except claims arising from the concurrent or sole negligence of State, its officers, agents, and employees.
2. Grantee shall indemnify, hold harmless and defend State, its officers, agents and employees against any and all claims demands, damages, costs, expenses or liability costs arising out of the acquisition, development, construction, operation or maintenance of the property described as the Project which claims, demands or causes of action arise under Government Code Section 895.2 or otherwise except for liability arising out of the concurrent or sole negligence of State, its officers, agents, or employees.
3. Grantee agrees that in the event State is named as codefendant under the provisions of Government Code Section 895 et seq., the Grantee shall notify State of such fact and shall represent State in the legal action unless State undertakes to represent itself as codefendant in such legal action in which event State shall bear its own litigation costs, expenses, and attorney's fees.
4. Grantee and State agree that in the event of judgment entered against the State and Grantee because of the concurrent negligence of the State and Grantee, their officers, agents, or employees, an apportionment of liability to pay such judgment shall be made by a court of competent jurisdiction. Neither party shall request a jury apportionment.
5. Grantee shall indemnify, hold harmless and defend the State, its officers, agents and employees against any and all claims, demands, costs, expenses or liability costs arising out of legal actions pursuant to items to which the Grantee has certified. Grantee acknowledges that it is solely responsible for compliance with items to which it has certified.

G. Financial Records

1. Grantee shall maintain satisfactory financial accounts, documents and records for the Project and to make them available to the state for auditing at reasonable times. Grantee also agrees to retain such financial accounts, documents and records for three years following project termination or completion.

Grantee and State agree that during regular office hours each of the parties hereto and their duly authorized representatives shall have the right to inspect and make copies of any books, records or reports of the other party pertaining to this Contract or matters related thereto. Grantee shall maintain and make available for inspection by the State accurate records of all of its costs, disbursements and receipts with respect to its activities under this Contract.

2. Grantee shall use a generally accepted accounting system.

3. All facilities shall be open to members of the public generally, except as noted under the special provisions of this Project Contract or under provisions of the enabling legislation and/or program.

J. Application Incorporation

The Application and any subsequent change or addition approved by the State is hereby incorporated in this Contract as though set forth in full in this Contract.

K. Severability

If any provision of this Contract or the application thereof is held invalid, that invalidity shall not affect other provisions or applications of the Contract which can be given effect without the invalid provision or application, and to this end the provisions of this Contract are severable.
